Dear Travis,

Thank you for being a guest on **HOLDER OVERNIGHT**. It truly was a pleasure to have you on the air to talk about storytelling and to hear a little bit of **Grumpuss**.

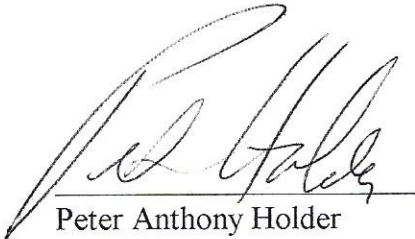

I have always maintained that storytelling is a lost art. It's good to hear that there are people out there who are continuing to entertain people in what is a very basic, yet time proven form of entertainment that allows the listener to engage in the theatre of the mind.

I'm sure our audience also enjoyed what you had to say. This is what nighttime radio should be all about! It was a most entertainment portion of the program where time managed to speed up and stand still at the same time. Absolutely mesmerizing!

Enclosed with this letter is an "aircheck" cassette containing the portion of the program you were on. You may keep it for your files. Please excuse the minor tape glitch near the beginning. We had a problem with the original tape from which this was dubbed, and as a result there is a slight audio problem for about 15 seconds near the top of the tape. I apologize for the problem.

Continued success with all you do and thank you once again for all your time and trouble.

Respectfully yours,

Peter Anthony Holder
Host, **HOLDER OVERNIGHT**
